## Canyon Looks Fine As Result of Good Rains Recently

Those who have driven around Canyon in recent days are highly pleased with the fine appearance of the town.

"Canyon never looked better," stated Mrs. J. A. Hill Wednesday afternoon.

The cool spring and good rains of the past two weeks have brought out the grass, flowers, and trees of Canyon.

The recent cleanup campaign has greatly improved the looks of the city.

Spraying of the alleys Thursday with DDT will have a good effect in keeping down the number of flies and insects this spring.

With hot weather in prospect, the weeds will get a good start unless citizens are alert to fight this crop.

## Selden Simpson Is Candidate For 123 State Representative

SELDEN SIMPSON

TO THE VOTERS OF THE 123RD REPRESENTATIVE DISTRICT:

In seeking the position of State Representative from the 123rd District of the State of Texas, I do so with a sense of humility and knowledge of the responsibility that goes with the position. I feel, however, that I am qualified for this position, both by education and training, and I am seeking this office on my own qualifications.

For the information of the voters of this district who do not know me, I am a native of the Panhandle of Texas, having been born in Clarendon, Texas, on 17 February 1915. Since 1926 I have been a citizen of Amarillo, where I attended grade school and graduated from the Amarillo Senior High School. I attended West Texas State College at Canyon, and am a graduate of New Mexico Military Institute of Roswell, New Mexico, and the University of Texas. I am a veteran of World War II, having served with the 36th Infantry Division of the Texas National Guard for over five years, thirty-four months of which was spent over-seas in the European Theatre of Operations and the Mediterranean Theatre of Operations, during which time I was continuously a member of the 142nd Infantry Regiment. Since my return from the service I have been engaged in the practice of law in Amarillo. I am married and have two children.

In making this race I am not obligated to any group or any special interest. I have entered this race with the sole purpose in mind of serving to the best of my ability the people of Armstrong, Carson, Potter, Randall, Deaf Smith and Oldham Counties. Should I be elected to this office, any decisions that I may be called upon to make will be governed by what I sincerely believe to be the view of the majority of the people of this district.

During the period between now and July 24, I shall endeavor to see as many of the voters of this district as possible, but due to the size of the district it may be that I will not be able to see all of you individually. I invite you to investigate my background and qualifications for this office and ask that you give due consideration to my candidacy. Respectfully submitted, Selden Simpson

## No Gas Ration This Summer Is Belief Thompson

It now appears certain that there will be no government rationing of gasoline this summer, states Col. Ernest O. Thompson, chairman of the Texas Railroad Commission.

Secretary of Interior Krug is reported to have made recommendations to the White House to the effect that while there may be "spot" shortages of gasoline and heating oil in the coming twelve months, they will not be serious enough to warrant the imposition of government controls.

The report contains oil supply-demand estimates including imports and exports for the fiscal year beginning with July 1, 1948, as follows: SUPPLY, 6,523,000 barrels daily including domestic production of 5,589,000 barrels daily and natural gas liquids, 419,000 barrels daily, and imports, 515,000 barrels daily; DEMAND, total, 6,453,000 barrels daily including domestic, 6,065,000 barrels daily, and exports, 388,000 barrels daily.

The report further states, "It is not anticipated, however, that these local difficulties will be of sufficient magnitude to warrant the imposition of government controls over the supply and distribution of petroleum. In fact, with supply and demand in such close balance, and with the industry already engaged in extraordinary efforts to supply the small increment necessary to prevent local shortages, the imposition of government controls might have a disruptive effect that would make matters worse instead of better."

This is a most gratifying statement, and I know everyone will be happy to know that we are not going to have gasoline rationing.

# Editorials

Members of the State Parks Board were impressed when they saw the Palo Duro State Park for the first time last week. Most Panhandle folks have been rather critical of the board for having no interest in the Park in years past. Frankly, let's think seriously about the situation and wonder just why these men should have had an interest in the Park. It was private property up until the legislature voted bonds in order to start paying off the debt against the park. With the debt cut more than half by the bond issue, there is a chance to pay off the debt. The board members were enthusiastic over the situation. If the State Highway Commission will now step in and build some good roads in the park, and the legislature will appropriate a reasonable amount to add attractions to the park, you will see a vast improvement in the Palo Duro. Here's best luck for future development in this great wonder of nature.

Talked to a candidate for district office the other day who had visited a number of counties in the Panhandle. He reported that there was little or no interest among the voters in the coming July primary. Frankly it is too early to get steamed up over political campaigns. Local candidates are working quietly among the voters, and lining up their friends. We recall the sage advice of a well known political figure in Texas a few years back when he stated that state campaigns are won or lost during the last two weeks of any campaign, and that county campaigns were won or lost during the last three days of any campaign. The more we see of politics the more we are convinced of the truthfulness of this remark. When voting time approaches the people make up their minds on the merits of candidates. Before that time they are looking over the field and trying to reach a stage for evaluation of the candidates. But the candidates must be active in order to get the people thinking about them—favorably, of course.

Most people in Canyon thought that we were the only people in the Panhandle who had a surplus of dogs. Mayor W. A. Warren found out at the meeting of mayors last week that this was the common problem of Panhandle towns, big and small alike. It is not only the stray dogs, but family pets alike, which are causing headaches among the city dads of the Panhandle. Even big Amarillo has a dog problem, which Mayor Hagy says is very critical. Most of the people sympathize with city dads who are worried by these insignificant problems, which become real problems in the eyes of the citizens. If you have a solution to the dog menace, speak up and tell your city commission.

Pampa voted last year to abolish the city commission form of government and go back to the alternate form. Up at Borger a recall election will be held soon for the purpose of abolishing the commission form. Most people will agree that the commission form is preferable when it is properly operated. No form of government will operate by itself. There must be a plan, and some one behind the plan to see to it that the system is effective.

Picketing the White House by communists and their friends will not help the Wallace campaign among the voters. The fact that many of the pickets wore Wallace buttons is proof enough of what could have happened to America if Wallace had been elected vice president four years ago and be the president today; and it cements the fact in the minds of the voters of the dangers of communism, working through Wallace, in this 1948 presidential election.

We see where gypsy women have been fleecing Panhandle citizens, by blessing their money. The cash is blessed sure enough, as the victims are robbed by the intruders who have the habit of forcing their way into offices and homes. The only way to get rid of these nimble fingered artists is to call the police, and do it quickly, before they rob you.

We are now told that Taft will lead in the Republican convention's first ballot, but will lack sufficient strength to win. Rather than allow a dark horse to win, or even Stassen to place, it is stated that Taft will throw in to make Dewey the nominee. Frankly, the people are getting a little warm on Stassen. He has been trying to ride too many horses in different directions at the same time during the campaign. The convention will probably select its candidates without an open break between the Taft and Dewey forces.

Governor Jester will likely have little trouble in defeating his opponents in the July primary. A couple of candidates base their campaigns on a state appropriation of about \$60,000,000 to pay bonuses to war veterans. In spite of the fact that soldiers in World Wars I and II were federal, rather than state fighters, many politicians are seeking to make a state bonus the political football for the purpose of riding into office. While 10 states have voted such a bonus, practically all of the other states have refused to take money out of the state taxpayers pockets for the purpose of paying such a bonus. Governor Jester is opposed to such a bonus, and hence the opposition of some politically minded candidates.

These picket fellows amuse us. We could never see the sense of marching up and down in front of a business establishment. Last year we saw such a group in front of a hotel. The patrons paid no attention to the marchers. Only when they try to halt traffic or work do they become a menace.

The President is off on a long jaunt across the nation. Harry will find out, if he listens to local citizens throughout the trip, that the stuff which is being pumped into his ears by Washington advisers, does not represent the sentiment of the people. We hope that the grass root boys will get a chance to talk to the President, and will tell him what the people think.

Highly successful atomic bomb tests at Eniwetok will result in Atomic Energy Commission demands for more money. AEC will try to prove that present bomb factories are obsolete and that new plants and equipment will have to be built if the U.S. is to continue to lead the world in A-bomb making.

Despite sensational reports on performance, the U.S. Air Force will junk its B-36 bomber. Orders for 88 planes will be canceled and the 12 planes the Government now has will be retired. Discovery that the long-range B-36 is too slow will have cost the U.S. \$100 million.

If a shipping strike should come, blame can be placed entirely on Commie sailors employed by American ship-owners. Communist union members who have more votes now than the National Maritime Union boss Joe Curran's supporters, are eager to stage a walkout, even if it wrecks NMU.

Clumsy handling of recent American-Russian notes can be blamed

## OUR DEMOCRACY—by Mat

### THE PRICE of LIBERTY 1790 and TODAY

"IT IS THE COMMON FATE OF THE INDOLENT TO SEE THEIR RIGHTS BECOME A PREY TO THE ACTIVE. THE CONDITION UPON WHICH GOD HATH GIVEN LIBERTY TO MAN IS ETERNAL VIGILANCE."

These words were spoken in 1790, not by an American but in Ireland by John Philpot Curran in a speech upon the right of election.

They express a sentiment that was strongly felt by the citizens of our Republic and of other countries where the spirit of Democracy was rising and the right of election had been won by the people.

They apply with even greater force today, when the right of free election is being imperiled in various countries in the world. Maintenance of this right requires eternal vigilance.

HERE IN THE UNITED STATES THIS MEANS ACCEPTANCE BY ALL OF US OF THE RESPONSIBILITY TO PARTICIPATE ACTIVELY IN THE ELECTIVE PROCESSES OF OUR DEMOCRACY.

first on U.S. Ambassador to Moscow Walter Bedell Smith who let Truman think the Russians wanted a four-power parley instead of a closed U.S.-Russian discussion. Secretary Marshall's top adviser, George Kennan, also added to the confusion by insisting to the very end that America should extend the olive branch to the USSR.

The State Department is trying to bolster U.S.-Russian trade. A new policy soon will ease export licenses for all goods, except military supplies. Western European nations will be allowed to re-export processed American goods over the Iron Curtain as long as they cannot be used for war.

Jealousies and bickering threaten U.S. aid to Europe. Economic Cooperation Administrator Hoffman and roving Ambassador Harriman are feuding. Harriman wants to run the show in Europe. Hoffman insists that no commitments can be made to any nation until demands for supplies are measured in terms of domestic needs. Secretary Marshall may have to enter the dispute before the two ram their heads together.

Communist members of the CIO have begun their smear campaign against Philip Murray. First and one of the nastiest balls flung at Murray, a Roman Catholic, is that "he is an agent for the Vatican."

Unless interest in his third party revives, Henry Wallace may give up his crusade and withdraw as a Presidential candidate before the Democratic convention in July. He thinks his opportunity even four years hence is lost, and Taylor, his running-mate is pressuring him to drop the fight.

Democrats can forget about nominating Ike Eisenhower. In an exclusive statement, the retired general said that he could never run for the Presidency on a Democratic ticket for the simple reason that he is a Republican. He will support whomever the Republicans nominate.

#### NOTICE TO BIDDERS

Notice is hereby given that the City of Canyon, Texas will receive bids on the following described road machinery, to-wit: One Motor Grader powered with gasoline engine developing not less than 30.5 horsepower at 1650 RPM, equipped with electric starter, 10' by 1/2" blade, Wide Front Axle, weight not less than 8,300 pounds, delivered at Canyon, Texas.

Contract to be made by the City of Canyon, Texas for the purchase of such machinery on the 10th day of June, 1948. Bids on same may be delivered to the City Secretary of the City of Canyon on or before 10:00 A. M. June 10, 1948.

The City of Canyon reserves the right to reject any and all bids. W. A. Warren, Mayor City of Canyon.

On his vote-raising trip this month Truman will talk principally on two subjects. He will whip the inflation debate to a fare-thee-well and try to blame the GOP entirely for high prices. He will glorify U.S. foreign policy to the same extent and try to credit himself entirely.

Harry Truman will not enter lagging railroad strike negotiations. He has told the Justice Department to renew the strike-breaking injunction against the unions on May 29 and to keep renewing it until the union leaders are willing to settle for the operators' initial offer of 15 1/2 cents an hour.

State Department big-wigs have asked Truman to clamp down on Army and Navy officers' loose talk of war.

Walter Bedell Smith, U. S. Ambassador to Russia, is to keep his job for several more months if he wishes, but General Smith is being blamed privately by high State Department officials for the bobbie that occurred over U.S. peace feelers to the Russians. The Ambassador gave the Russians a copy of the statement he had made to them orally under State Department instructions, without specifying that it be kept secret.

All top military and diplomatic advisers of Mr. Truman are working on the foreign-policy speech he is to deliver in California on June 12. This pronouncement is counted on to make clear the direction U.S. is following in relations abroad.

Dwight Eisenhower, Columbia University president, intends after the Republican candidate is nominated to declare his support for that candidate in order to forestall a move by the Democrats to start a draft movement for him. The wartime Army Staff Chief is determined not to get tangled in the move to stop Mr. Truman.

Democratic and Republican Congressional leaders will make a concerted effort to recess the Congress before convention time. Neither party wants its platform chewed apart in post-convention sessions.

### Advance of Insects Stymied by Science

Man's Intelligence Termed the Only Safeguard in Struggle.

LONDON. — The dinosaurs had their day, 60 million years ago, and fishes had their millions of years before that. Mammals had a golden age and today is the age of man, the highest mammal.

Many seers, professional and otherwise, have predicted that the next form of life to take over will be the insects. Only man's intelligence, so entomologists believe, stands between the decline and fall of mankind and the rise of bugs.

Dr. V. B. Wigglesworth of Cambridge university, one of Britain's outstanding entomologists, told a science survey audience, reassuringly, that scientists are doing their best to provide more efficient weapons in the struggle against insects. The basic element for eventual success, he warned, is knowledge.

"In the practical art of killing insects," he said, "there comes a time when we find that our basic capital of knowledge is exhausted. It is the pure sciences which provide that working capital."

New fields of inquiry are being opened up, Wigglesworth said.

### Huge Feed Mill Nears Completion At Fort Worth

Fort Worth: It was two days before Christmas in 1946 that a crew began work out on a prairie north of Fort Worth. Today, nearly a year and a half later, construction is almost completed on one of the largest and most modern feed mills in the world. The new plant, owned by Burrus Feed Mills, is of solid concrete and steel, representing an outlay estimated at \$2,000,000. The central structure is 11 stories, including basement, and rises to a height of 189 feet.

In the graphic words of Wiley Akins, general manager, "the new mill is almost a push-button operation."

Its labor-saving and time-saving mechanisms are a far cry from the back-breaking methods of former days when men unloaded freight cars with shovels and other workers pushed hand-trucks, which carried five sacks of feed.

At the new mill, a car containing 100,000 pounds of cotton seed meal can be unloaded and the contents conveyed by air suction to the tenth floor in half an hour. To unload a car of grain and transport the grain to storage bins will take only four minutes!

Power for the new mill will be provided by 242 electric motors. The sifting, grading, weighing, and packaging will be done entirely by machinery.

The warehouse is immense, being 800 feet by 200 feet—7½ acres under one roof. Thirty-two box cars can be loaded at one time inside the building while eight of the largest type trucks are being loaded at the freight dock.

The mill can operate 24 hours a day and has a capacity of 2,400 tons, or 80 carloads, in 24 hours.

Leo Allen, Representative from Illinois and chairman of the House Rules Committee, is confident he and some other House leaders can block enactment of a draft at this session of Congress. Delaying tactics are being used while an effort is made to build up sentiment against the draft.

James Forrestal, Defense Secretary, is having little success in getting the Air Force and the Navy to see eye to eye on the way money should be spent most effectively to provide this country with a good Defense Establishment. One big argument now is over whether the aircraft carrier is much good in a continental war, with the Air Force inclined to skepticism.

Free speech in Russia just means that if you're cut off the party line you hang up.

The Zionists would like to see Palestine governed by a system of Jewrisprudence.

Noiseless arguments are the most sound.

### Cautious Couple Auditions Pastor Before Wedding

ST. LOUIS, MO. — A pastor standing at the rear of his church at the close of services noted a young man and woman, strangers, coming out and hastened to introduce himself.

He was somewhat taken aback when the youth explained: "We're here, sir, because we plan to be married, and we are looking for the right sized church with a good center aisle. Well, your church meets the requirements, so we just dropped by this morning to audition you. We think your voice and manner are great, so how about your handling the wedding?"

### Manuscript of Beethoven's Last Completed Work Found

BALTIMORE. — The original manuscript of what is believed to be the last completed work of Composer Ludwig von Beethoven has been unearthed at Peabody Conservatory of Music, officials of the institution said.

Searching for displays to celebrate the conservatory's 80th anniversary, the manuscript was found gathering dust amid modern books and magazines in a library. Peabody officials said they were unaware it was in their possession.

The work is a canon, a composition having "voices" or "parts" with the same melody sung in harmonious succession. The words and music are in Beethoven's handwriting.

Beethoven sent the composition to a friend along with the last movement of his B-flat quartet.

### N. Y. Court Decision Holds Test-Tube Baby Legitimate

NEW YORK. — A supreme court justice ruled that a child born as the result of artificial insemination is legitimate.

The ruling was made by Justice Henry Clay Greenberg in deciding that the estranged husband of Mrs. Julie Strnad, 31, had a right to visit her daughter, four-year-old Antoinette, who she said was a product of artificial insemination.

Mrs. Strnad claimed that her husband, Antoine, 42, was sterile since birth, an allegation he denied. She sought to prevent him from seeing the child on the ground Antoinette was not the offspring of her ex-mate. She had won a separation decree and principal custody of the child last October.

### Atomic Danger Zone Posted For Tests on New Weapons

WASHINGTON.—The atomic energy commission has posted a "Danger—Keep Out" notice covering 39,000 square miles of the Pacific ocean surrounding Eniwetok atoll, site of forthcoming "tests of military weapons."

"Hazards will exist" in a rectangular area approximately 173 miles north and south and 226 miles east and west, the commission said.

The danger will continue throughout 1948.

### Plane Crosses Ocean With Dead Motor; Bishop Safe

SYDNEY, AUSTRALIA. — An Australian flying boat, carrying 29 passengers and a crew of 6, landed here safely after flying 380 miles across the storm-tossed Tasman sea with one of its four engines dead. Among the passengers were Episcopal Bishop G. Ashton Oldham of Albany, N. Y., and his wife.

### Railway Passengers Gassed And Robbed in Romania

BUCHAREST, ROMANIA. — A band of thieves put all the passengers in a railway carriage to sleep by using gas and robbed the night train from Bucharest to Iasi, the newspaper Natunea said.

When the passengers woke up at Iasi station they found all their luggage gone.

## Thurmon-Melton Wedding Rites Read at High Noon Saturday

Beautifully draped double windows formed the background of an improvised altar for the scene of the high noon wedding of Leavurn Thurmon, daughter of Mr. and Mrs. T. M. Thurmon, to Grady Melton, son of Mr. and Mrs. L. T. Melton of Garvin, Oklahoma, in the home of Mr. and Mrs. Olin Huff Saturday, June 5. Pink roses, pink and white daisies and delphinium in tall baskets flanked by tall tapers completed the altar decorations.

Lisle Bonner, Minister of the Church of Christ, read the single ring ceremony.

Misses Norma Dean Thurmon, sister of the bride, and Nancy Kay Tomlinson lighted the candles while Mrs. Huff played "Pure as Snow." Miss Norma Jean Tomlinson sang "I Love Thee" and Olin Huff sang "I Love You Truly." Miss Joyce Thurmon, sister of the bride, played the traditional wedding marches.

Miss Irene Razor of Little Rock, Arkansas, W.A.C. companion of the bride, was the bride's only attendant. She wore a pink linen street length dress trimmed with white embroidered flowers. Her corsage was white gladioli and blue cornflowers.

Troy Thurmon, brother of the bride, was the best man.

Mrs. Thurmon chose for her daughter's wedding a pink print. Her corsage was of blue daisies.

Given in marriage by her father, the bride wore a white dressmaker suit, wide brimmed hat, and black accessories. She carried her bouquet of pink throated white gladioli and mock orange blossoms on a white Bible.

After a wedding trip to points in Oklahoma the couple will be at home in Hereford where Mr. Melton is connected with the Irrigation Maintenance Co., of Happy.

For the wedding trip the bride chose a black and white suit with red accessories.

Immediately after the ceremony a reception to honor the couple was given in the home of Mr. and Mrs. S. R. Hood. Pink roses and white tapers decorated the attractively appointed table where Mrs. Huff served the cake and Mrs. Hood presided at the punch bowl. Miss Joyce Thurmon attended at the guest book.

Mrs. Melton graduated from Plainview High School, served in the W.

A. C. for 3 years, graduated from Amarillo Beauty School and at the time of her marriage was operating a Beauty Parlor in Happy.

Palms formed the background for the altar decorations of gladioli and cathedral tapers.

Preceding the ceremony, Miss Norma Jean Tomlinson sang "Always" and Mr. and Mrs. Olin Huff sang "I Love You Truly." As the processional music eight girls hummed Mendelssohn's Wedding March.

Mrs. Bill Lemon, sister of the bride from Henderson, Tennessee, was matron-of-honor. Her gown was of pink tulle. Miss Geneva Ann Devin, sister of the bride, wearing blue net, and Miss Jane Duncan, wearing pink net, served as bridesmaids. All the attendants' gowns were styled along the same lines of the bride's. Their bouquets were rose nosegays.

Mr. Bill Lemon was best man. Neil Jennings and Troy Thurman were ushers.

The bride, who was given in marriage by her father, chose for her wedding a bridal white satin gown with full length train. The basque bodice was joined to net fitted into the off shoulder neck line of satin with a lace ruffle. The long fitted sleeves extended into points over her hands. The peplum of the skirt was edged with lace. Her finger tipped veil was held in place with pearls and silver. She carried a white Bible topped with yellow and white roses tied with white satin. Her only ornament was a single strand of pearls that had been worn by her sister at her wedding.

Following the ceremony a reception honoring the bridal party and friends was given in the home of Mr. and Mrs. Lorenzo Wirt. From a white linen covered table centered with yellow and blue aster centerpiece, Mrs. Olin Huff presided at the punch bowl and Mrs. Lisle Bonner assisted by Mrs. Ed Bourn served the cake.

## Dr. Roy L. Johnson Talked on Different Religions of World

Dr. Roy L. Johnson lead a discussion on religion at the Rotary Club luncheon Tuesday. He based his talk on questions asked by members of the club.

Lee McLaury was introduced by Stuart Condon as a new member of the club.

Dr. Johnson pointed out that there are only 11 different religions in the world, some so closely related that they are hard to distinguish.

Regarding so many denominations, this is the outgrowth of freedom of religion in America, where men are permitted to express themselves as they like.

The speaker doubts whether all churches will be united, and whether Christianity would be strengthened by such a move.

The only difference between "old time" and modern religion is the advance of civilization when men are more restrained in expressing their emotions.

Stalin studied for priesthood in the Greek Orthodox Church, but dropped this for Communism. The Greek church was the orthodox church of the czars and was kicked out during the revolution. There is no place for Communism and Christianity in the same world.

Dr. Johnson discussed the Jew-Arab situation and believed that neither would stop until one had been extinguished.

Visitors were: Walter Bahr of Oklahoma City; G. S. Lasswell of Dayton, Texas; R. M. Hobdy of Canadian; Perry Moring of Sudan; J. V. Newby, J. O. McGuire, Arch Hunsley, Ted Neely, W. F. Perkins, R. E. Wertz, W. W. Rusk, Horace Griggs, Bill Dell, all of Amarillo.

## THE PRICE OF PEACE

We sent our finest manhood to pay the price of war on land and sea and in the air; and it was a great price as many of us shall always know. But war is a terrible tragedy unless peace lies beyond its sacrifice and death. We have all had a share in paying for the war, though for many of us it was only a few additional dollars in taxes. In fact some have profited greatly by the sufferings and heroism of the dead. Never have we had so much money to spend on ourselves and on our families. But we need to look at the cemeteries of the world to know the supreme sacrifice that was called for, that we might be secure and comfortable. It required the giving of life itself for many a man; and it called for sorrow and heartache for many a mother and father around the globe. The war cost enough for some of us.

The time has come for heroism in the cause of Peace; and it must be shown by every woman and man in our country. We must oppose with all our might the antagonisms that are growing between peoples; we can substitute understanding and good will if we will dare to say the truth when we know men are telling falsehoods about other fellow men. We must become ambassadors of tolerance and spokesmen for kindness and generous treatment of every man. Peace calls for more than money; it calls for courage and well informed effort for making the world into the Kingdom of God. We must see all men everywhere as our brothers; we must practice democracy which allows every other man the freedom that we demand for ourselves; we must be Christian in thought and in speech and in deed; for Jesus of Nazareth is the Prince of Peace. They who enroll under His leading and join Him in pleading for the Good Time of world friendship; they who are willing to suffer for goodness and truth and love; these are the makers of peace. "Blessed are the peacemakers; for they shall be called the children of God."

## News In Canyon 25 Years Ago

(Taken from the files of the Randall County News of June 7, 1923)

Rev. H. F. Aulick resigned as pastor of the local Baptist Church to accept the secretaryship of the New Mexico Baptist Association.

Bryan Durham and Miss Luella Oatis were married in the home of the bride's parents, Mr. and Mrs. B. F. Oatis.

Easton Allen was elected to the Sul Ross College faculty. He is the son of Mr. and Mrs. L. G. Allen and received his degree from West Texas State in 1920.

Only 71 votes were cast in the Canyon Independent School election called to increase the tax rate from 75c to \$1.00 on the \$100 valuation. The tax increase carried 47 to 24.

Governor Neff vetoed the entire appropriation bill and called upon the legislature to make appropriations fit the revenues of the state.

T. B. Slaughter, Randall county ranchman, died in Amarillo.

Irby Carruth is business manager for The Prairie during the summer.

J. D. Amend, Wayne McCormick, Harold Shanklin and Alfred Vetsch will represent Randall county in the stock judging contest at Childress.

J. A. Guthrie supervised placing several thousand young fish in the creek of the Canyon City Club.

## Congress Passes a Record Peace-time Appropriation Bill

The House passed an all-high peace-time appropriation bill of 10 billion dollars Wednesday and sent it to the Senate. It was opposed by only two members, both followers of Henry Wallace.

Congress takes the position that it is cheaper to spend money in a strong defense program than to run the risk of having to fight a defensive war.

Senator John Bricker, of Ohio, is slated to inherit many of the delegates now pledged to Senator Robert Taft in event the Taft boom does not catch hold in the Republican Convention. Senator Bricker, however, is far down the list of dark horses who might get a run in event of a Convention stalemate.

Many business problems will land on the doorstep of the next President. He may lose popularity and re-election chances by being forced to handle such things as a halfway-to-war economy, a \$40-\$50 billion budget, acute European aid problems, new decisions on how far the U.S. must go to stop Russia and maintain European stability.

President Truman is coming around to the idea that Senator Vandenberg will be his opponent this year. The President's political advisers are at a loss to find issues on which they can attack the Michigan Senator, who has done so much to help the White House in the Senate on issues of foreign policy.

The flag of the Confederate States of America during the Civil War was called the "Stars and Bars."

Most men agree that the paper shortage will continue to be felt the greatest in their wallets.

When a politician says he's a man of few words, notice how he keeps repeating them.

## British-American Fellowship Group Asks For Letters

American citizens who would like to correspond with a citizen of England have the opportunity by filling a request with Miss C. Elizabeth Mummery, Secretary of the British-American Fellowship, 39A, Ebury Street, London, S.W. 1, England.

The society believes that a better understanding between Americans and Britons may be reached by this exchange of letters. Local citizens may send your letters to the above and they will be assigned for correspondence with British citizens.

Harold Stassen is crossed off the list as a vice-presidential possibility if either Robert Taft or Thomas E. Dewey gets the Republican nomination. Both nurse a grudge against the candidate from Minnesota. Stassen's chance at the Vice Presidency probably would come in event of a Vandenberg nomination with both Governor Dewey and California's Earl Warren unwilling to take second place.

Henry Wallace is finding it harder and harder to generate and maintain enthusiasm for his third party even among groups far to the left. The prospect that Mr. Wallace will withdraw before the election is growing.

Cloture, in legislative parlance, means the ending of debate by majority vote.

Neap tides are low tides in the beginning of the second and fourth quarters of the moon.

Booker T. Washington was the first president of Tuskegee Institute.

Sparta, an early Greek city, was famous for the simple, hearty lives of its citizens.

Bureaucracy: Government of the people, by some of the people and for some of the people.

Elizabeth Vergoose originated the Mother Goose Rhymes in the 18th century.

France and Spain fought against England in the Battle of Trafalgar.

### Rev. B. F. Bollman Gives Illustrated Talk to Lions

Featured at the regular luncheon meeting of the Canyon Lions Club was Rev. B. F. Bollman, pastor of the First Presbyterian Church. He recounted in an interesting and illuminating talk many of the experiences incidental to his ministry in the Philippines. Assisted by Rev. Hubert Thomson at the projection machine, the speaker illustrated his talk with a film showing scenes of striking and colorful beauty of this unique Oriental country. Pictures of mountains, valleys, and palm-laden beaches were picturesquely portrayed.

Like many others in a similar situation, Rev and Mrs. Bollman utilized every method available to sustain life and morale, to endure the discipline of war's privations. MRS. KENNETH BRANDT GOODMAN

Saturday morning at 8:00 o'clock the First Methodist Church was the setting for the marriage of Peggy Jackson, daughter of Mrs. Emmagene Jackson of Plainview, to Kenneth Brandt Goodman, son of Mr. and Mrs. A. K. Goodman of Canyon.

Frederick Jackson of Denver, Colo., the bride was attired in a gown of white bridal satin, designed with a formal bouffant skirt, fitted bodice, bateau neck, long sleeves and tunic effect which terminated in a full-length train. Her veil of imported illusion fell in tiers from a coronet of illusion and baby's breath. Her arm bouquet was of white flowers and baby's breath tied with white satin ribbon.

## Summer Complaint Season Is Here Texas Children

Dr. George W. Cox, State Health Officer, has issued a warning to parents that this is the season for an increase in dysentery, diarrhea and "summer complaint."

"The chief cause of these intestinal diseases are contaminated milk; water or food; allowing the child to get overheated or exhausted; excessive sugar in the babies formula; and improper amount of food," Dr. Cox said. "All foods should be fresh and clean, and left-overs should be properly refrigerated to prevent spoilage."

Dr. Cox urged extreme care in the preparation of a feeding formula for infants. He said it should be prescribed by a physician, and that cleanliness and refrigeration were absolute essentials. Babies should be fed at regular intervals and on a definite schedule, since their stomach and bowels can be easily upset if fed irregularly or whenever they are fretful or restless.

The State Health Officer declared

that dysentery is transmitted by flies and said every home should be well-screened and free of flies.

"If dysentery or diarrhea develop, consult your physician at once," Dr. Cox advised. "This so-called 'summer complaint' can be a very serious menace to your baby's health, if not an actual threat to his life."
